CONTENTS

Préface

Roberto Ajello:

The linguistic expression of spatial relation in the Gizey language

Ari Awagana:

L'extension verbale en buduma

Roger Blench:

The Dyarim language of central Nigeria and its affinities

Raymond Boyd:

Les emplois de certains morphèmes déictiques en bata (Tchadique central)

Doris Löhr:
Predication focus in Malgwa

Joy Naomi Ruff:
Nasal + obstruent sequences in Lagwan

Henry Tourneux:
L'inversion tonale en KOTOKO

H. Ekkehard Wolff:
Reduplication, aspect, and predication focus in Central Chadic – What Lamang and Hdi tell about Malgwa verb morphology

Reviews

The volumes [III, IV] may be recommended to all Chadicists, and to scholars making research in Afro-Asiatic languages, but also to general linguists interested in topics such as predication focus, verbal extensions, spatial relations and TAM system. Both volumes contain a valuable collection of language data which is accesible to non-Chadicists becuase [sic!] most papers provide morphological glosses and use IPA symbols.
